

Flowchart and Entity Relationship Diagram of System

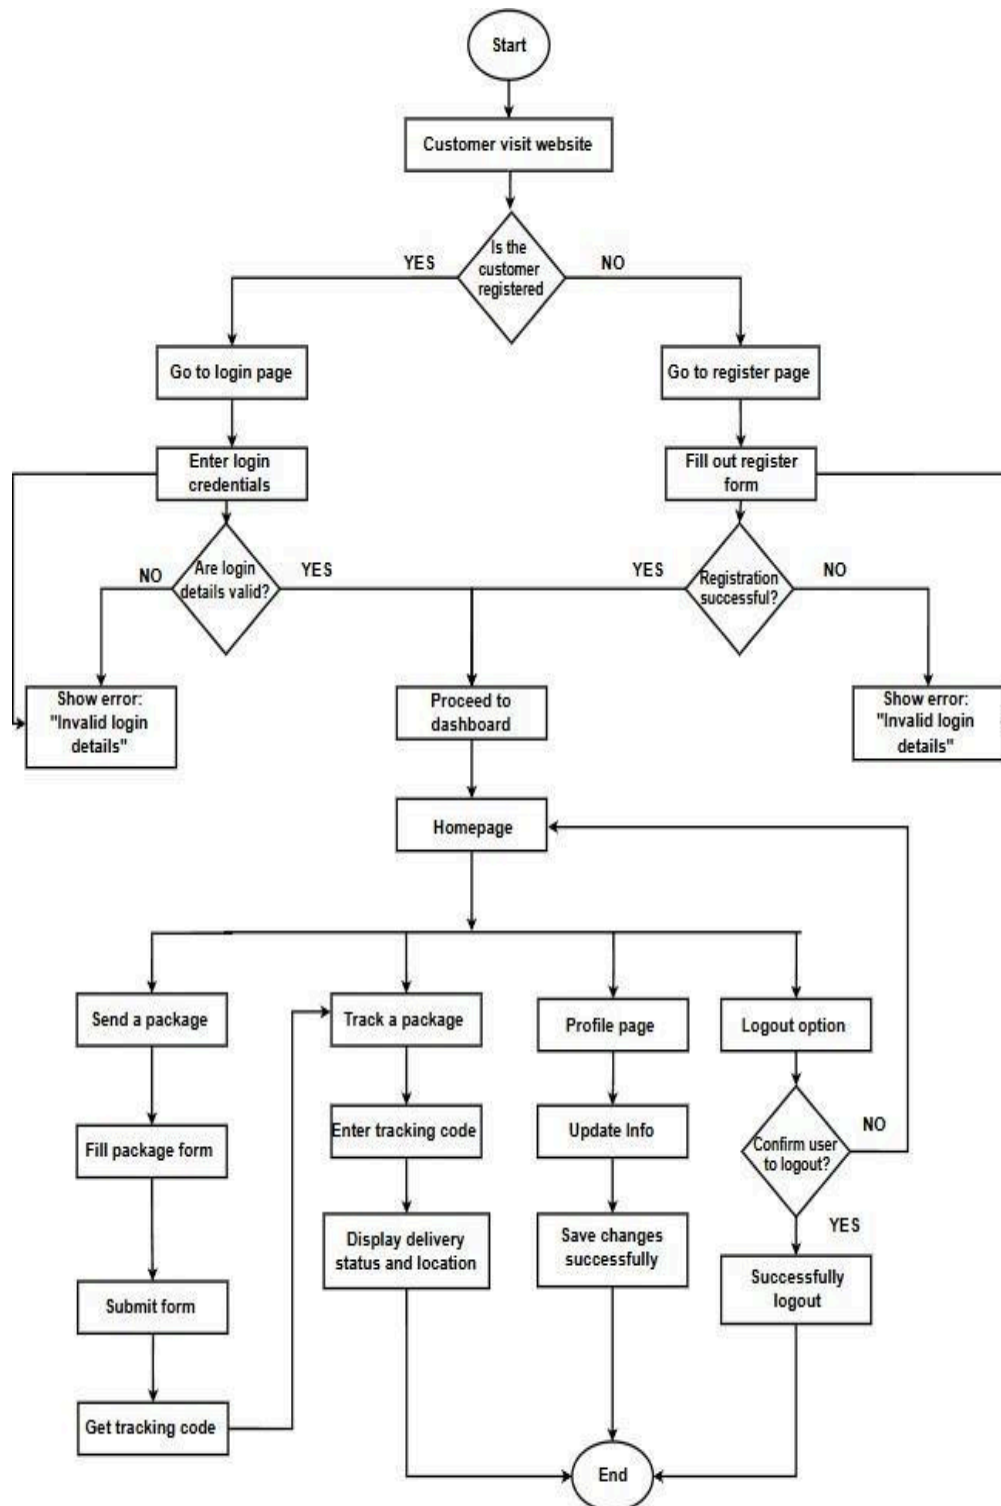

Figure 6: Online Customer Diagram

This diagram shows the projected process of a customer will through in the system.

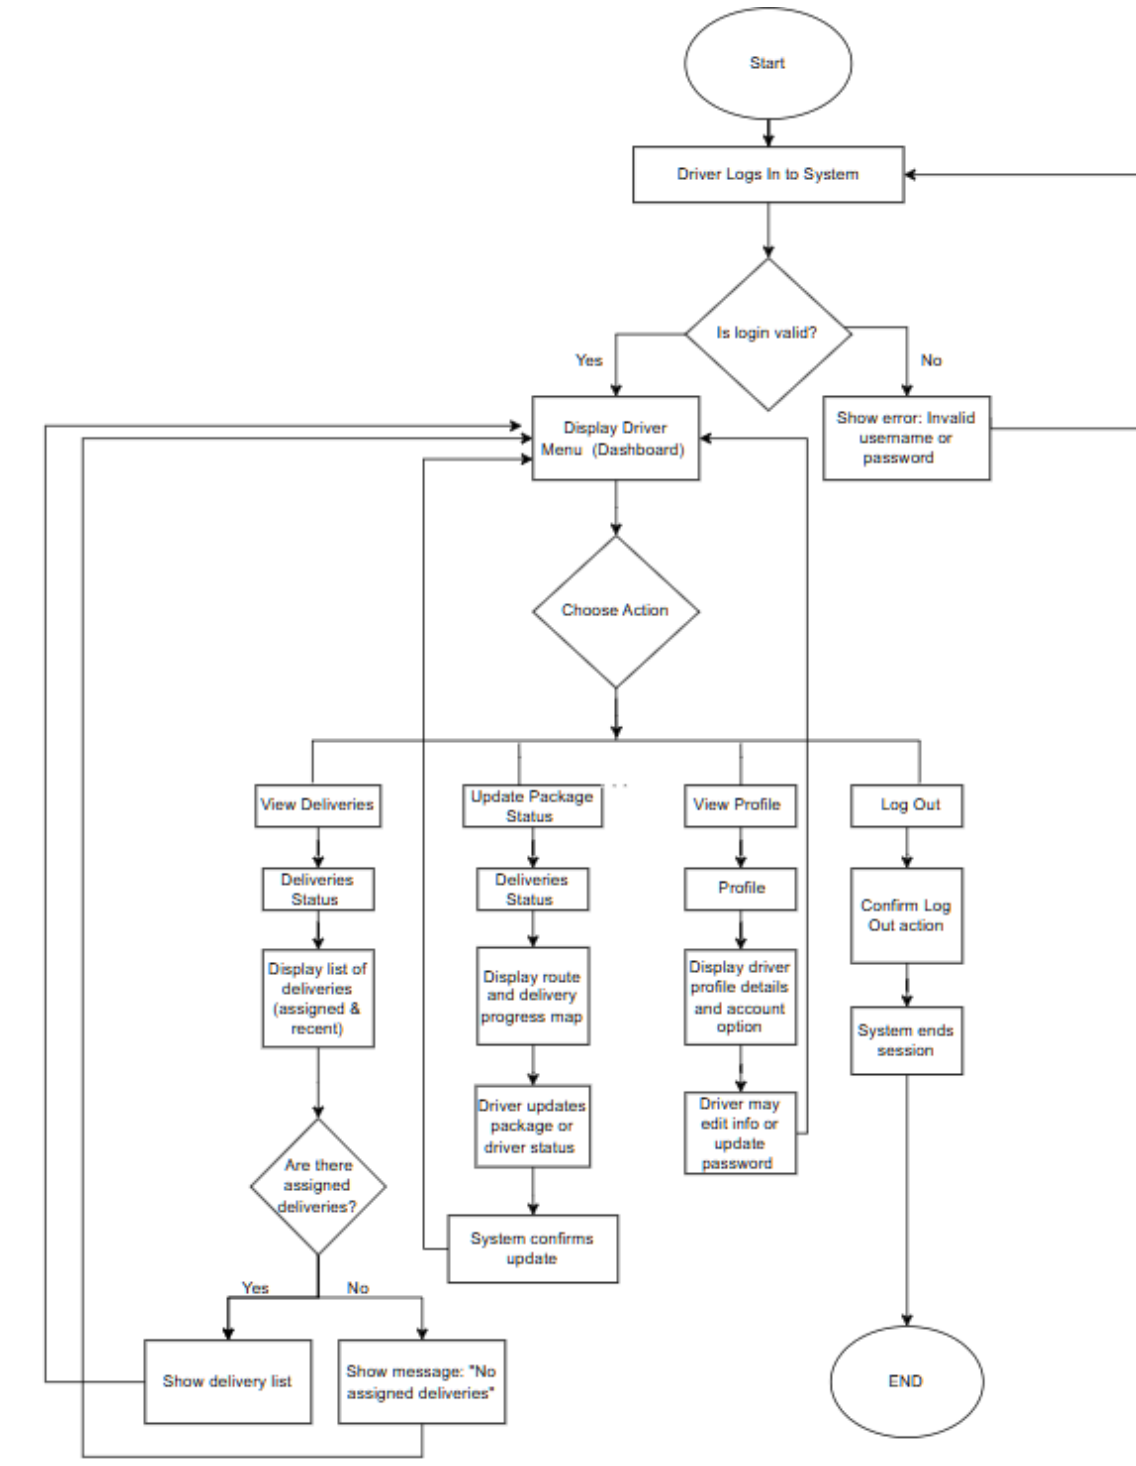

Figure 7: Driver Diagram

This diagram shows the projected process a driver will through in the system.

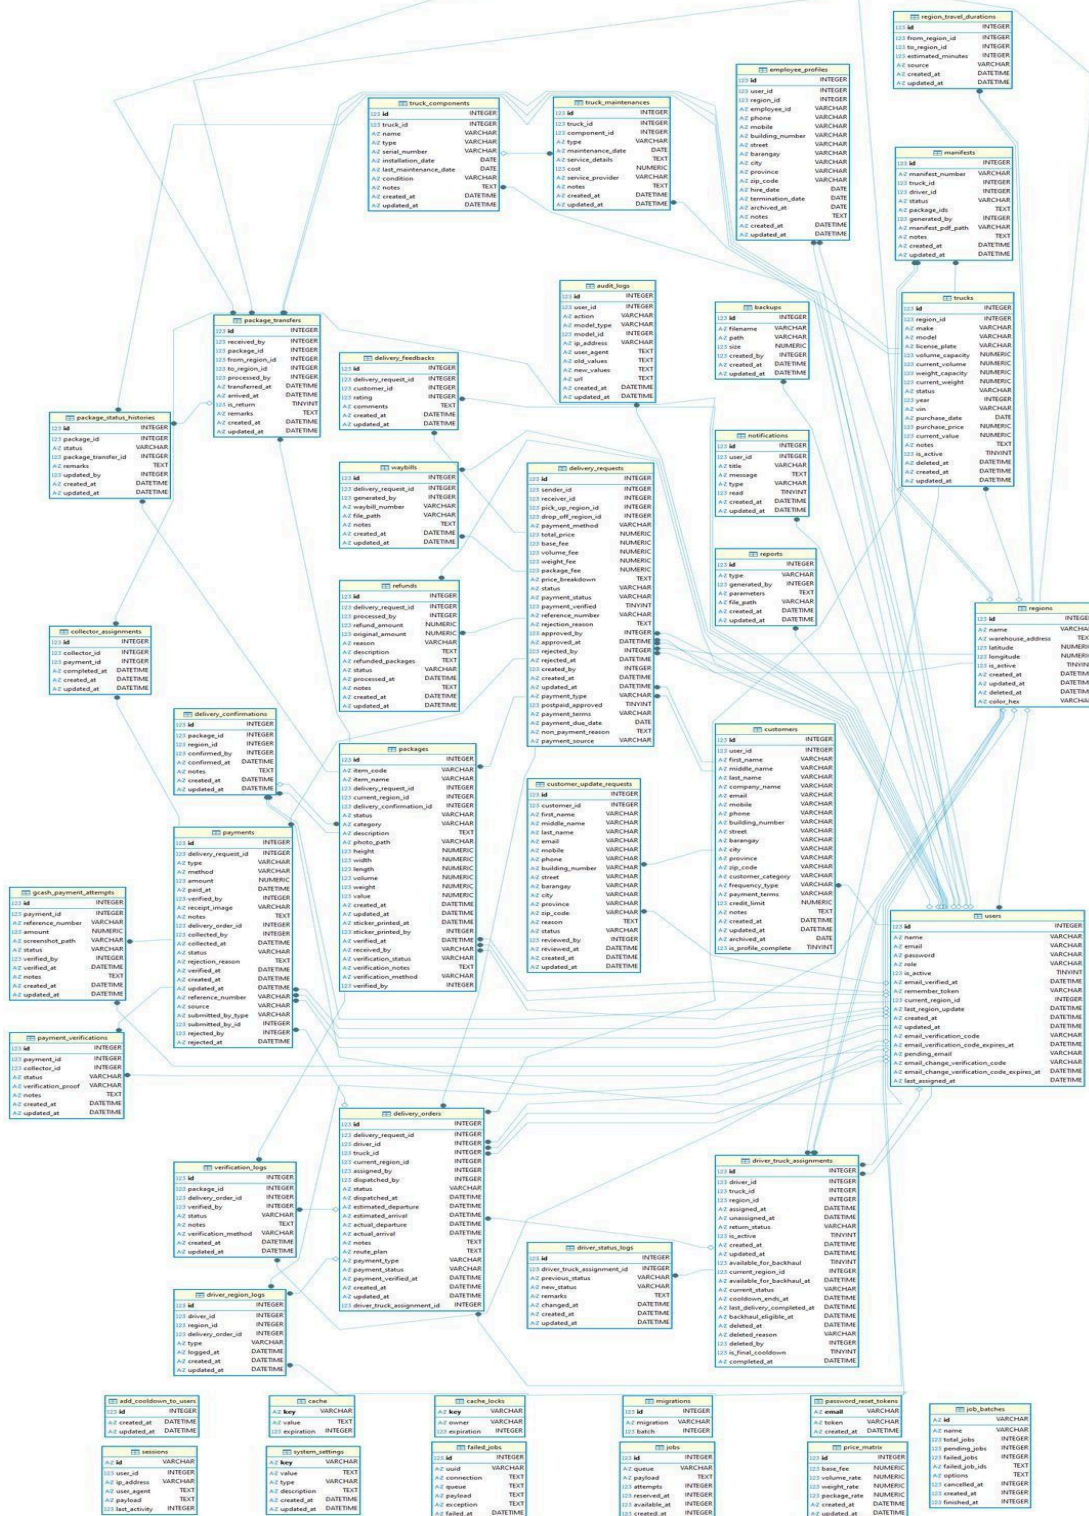

Figure 8: Entity Relationship Diagram

This is an image of the entity relationship diagram used for the system (database).

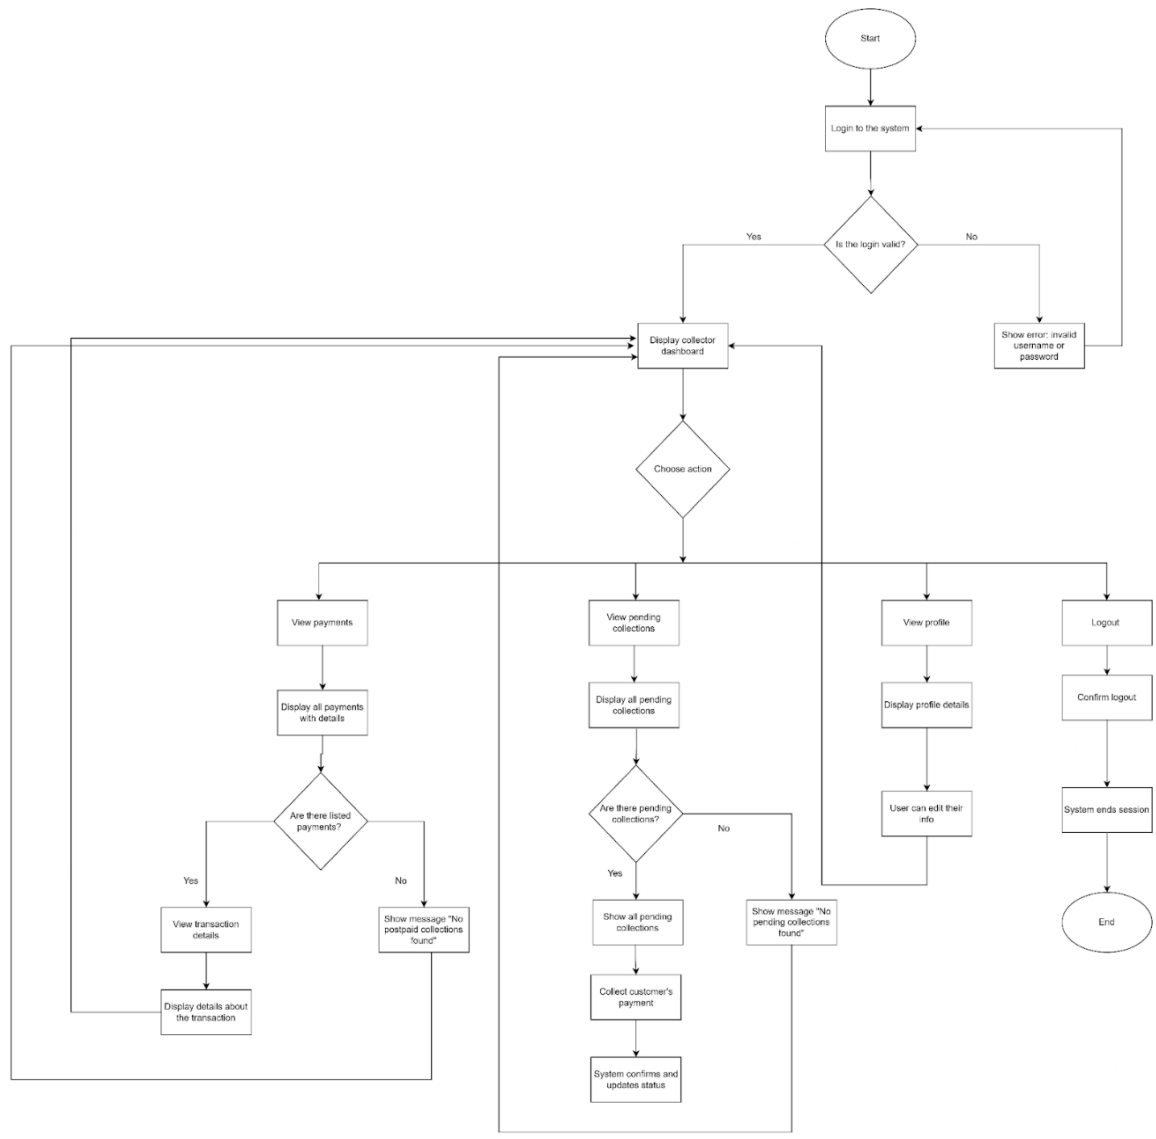

Figure 9: Collector Diagram

This Diagram shows the process of Collector through the system.

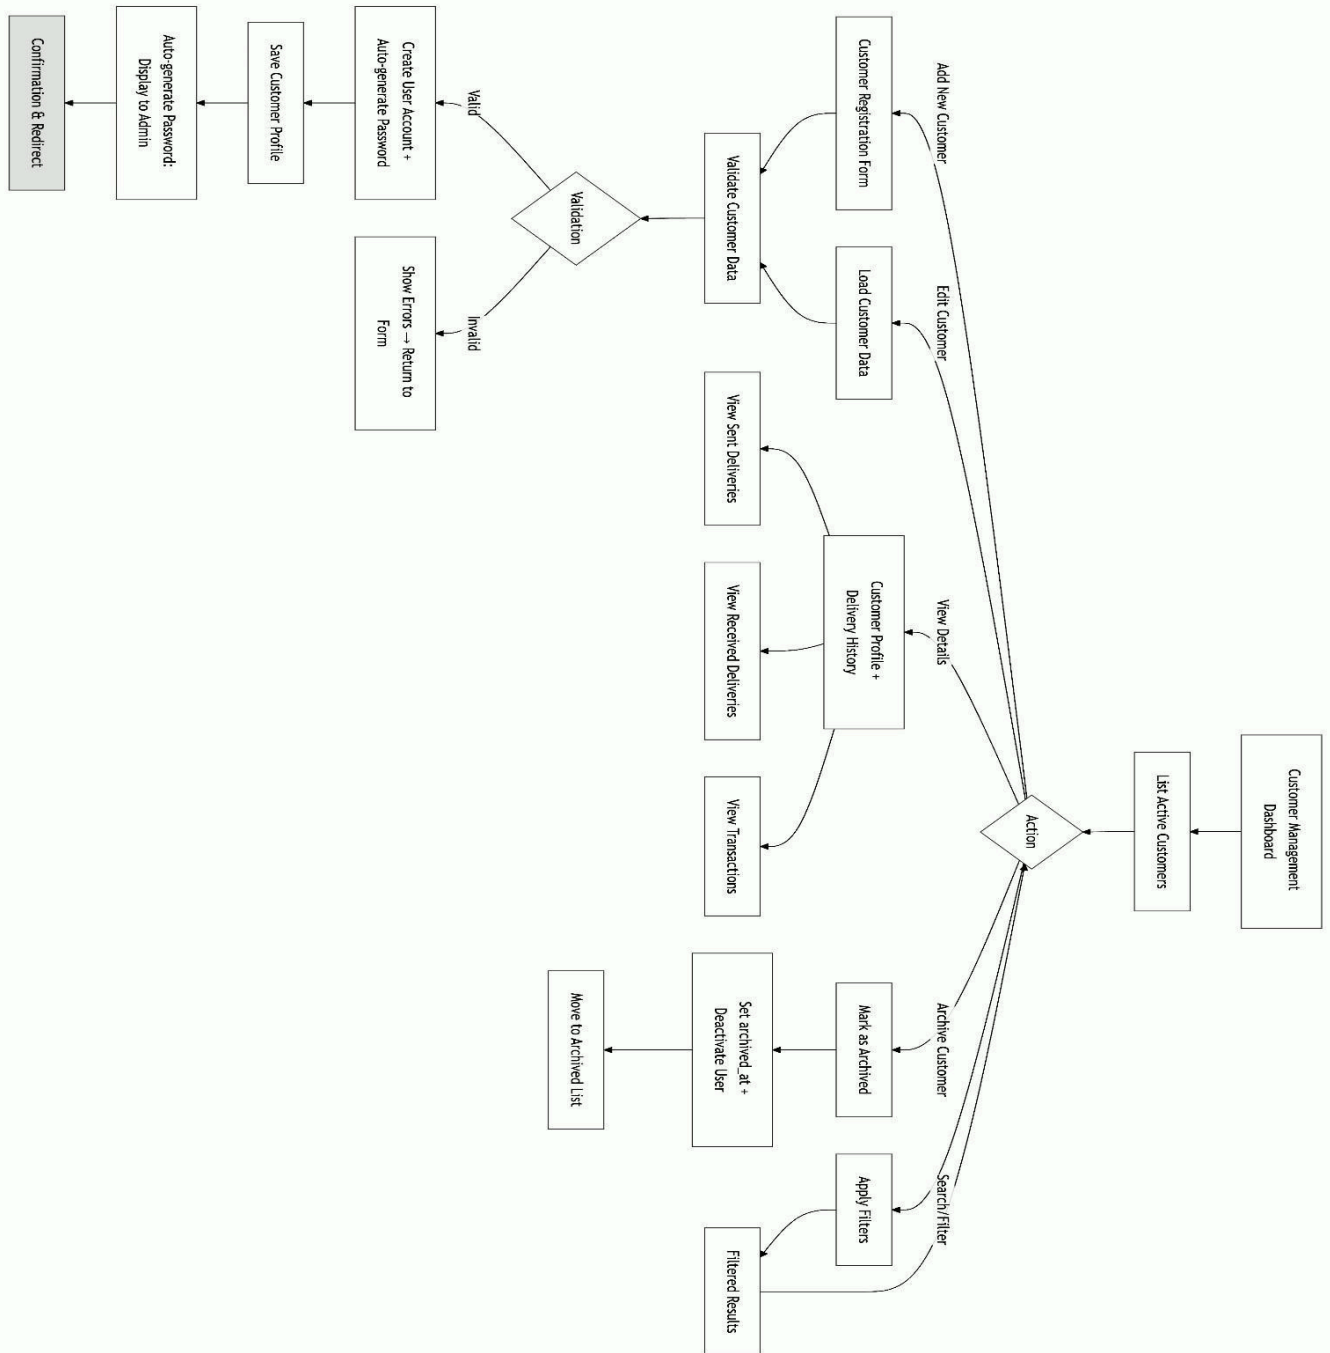

Figure 10: Administrator: Customer Management

This Diagram shows how the administrator manages customer.

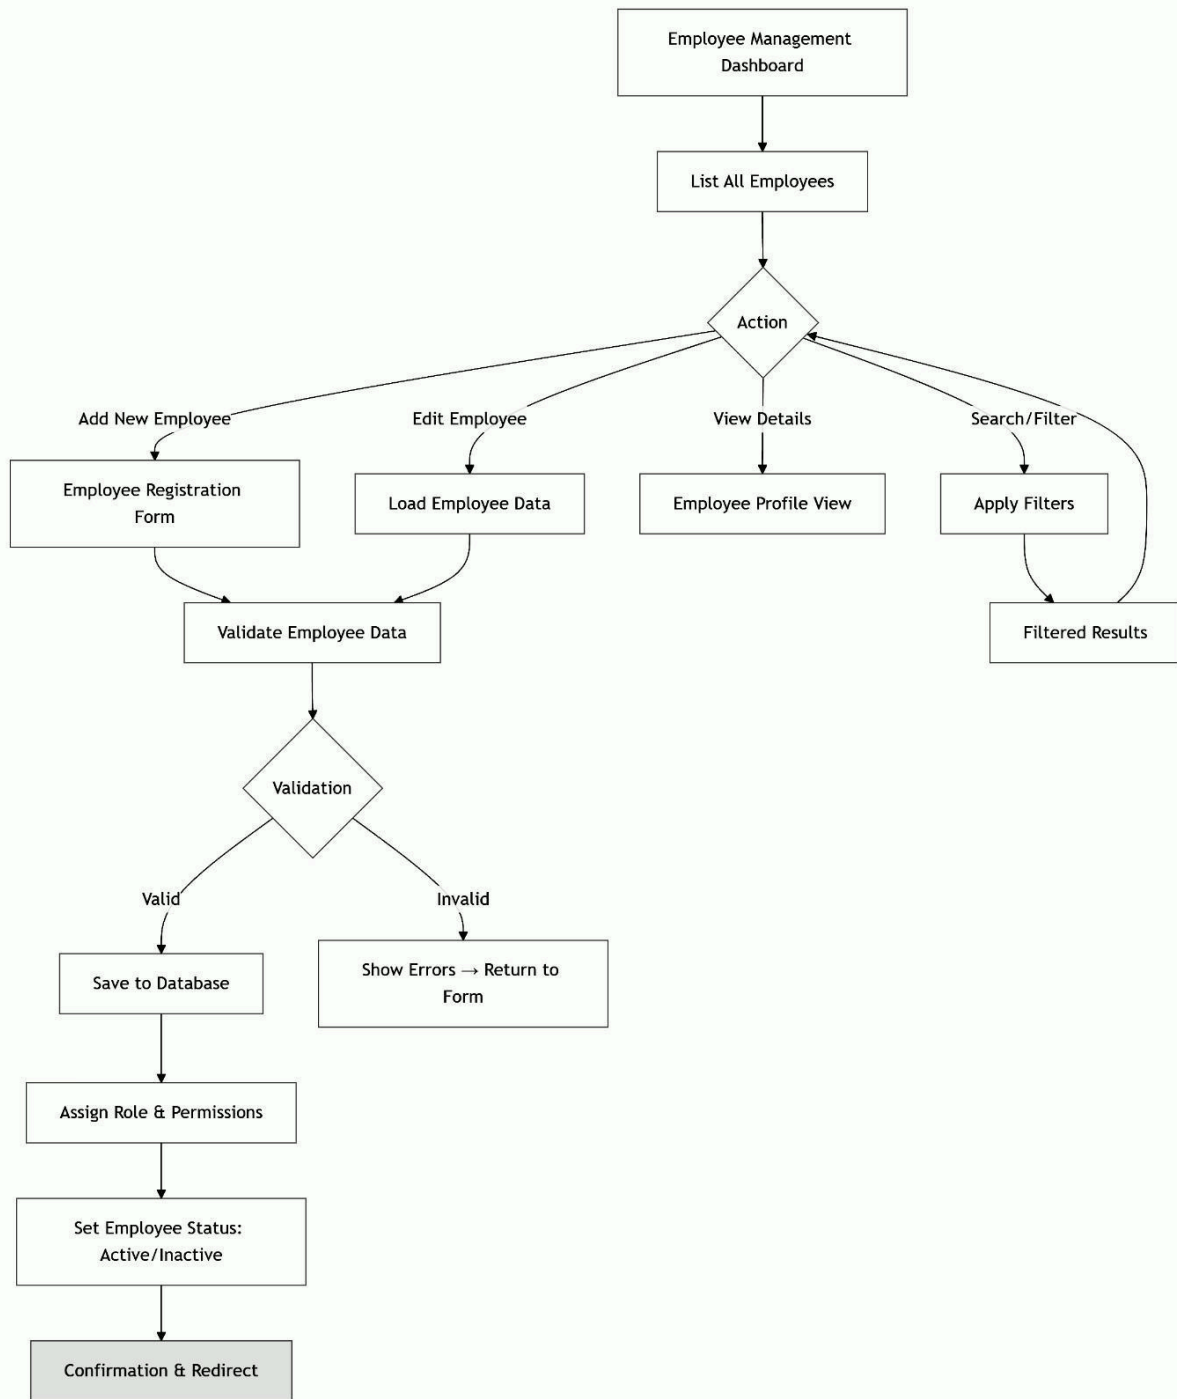

Figure 10.1: Administrator: Employee Management

This Diagram shows how the administrator manages employees.

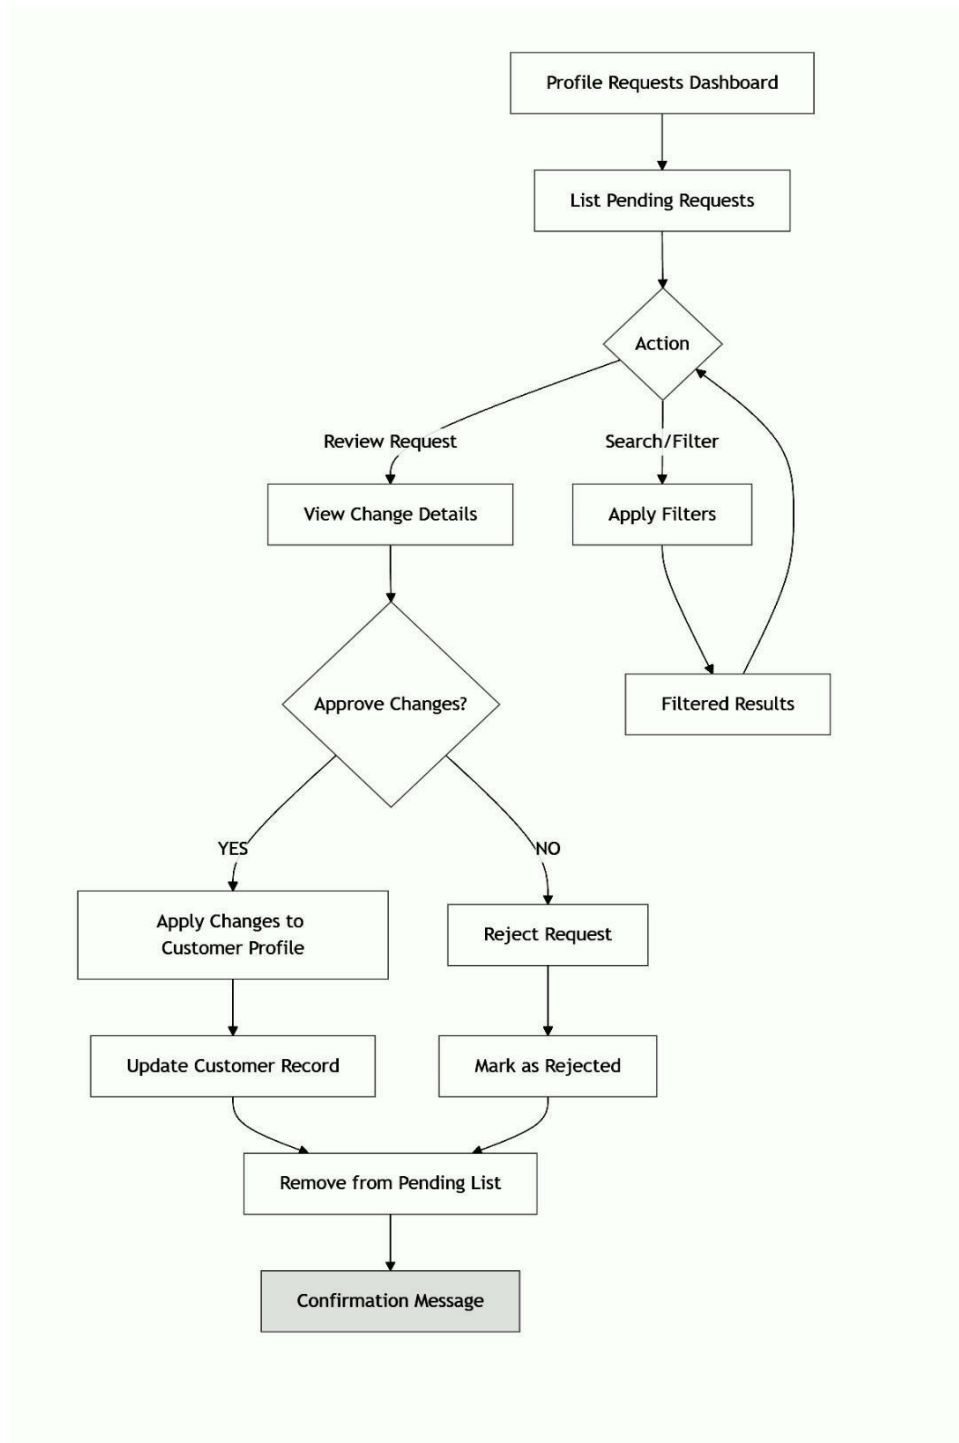

Figure 10.2: Administrator: Profile Request Change

This Diagram shows how the administrator manages employee profile change requests.

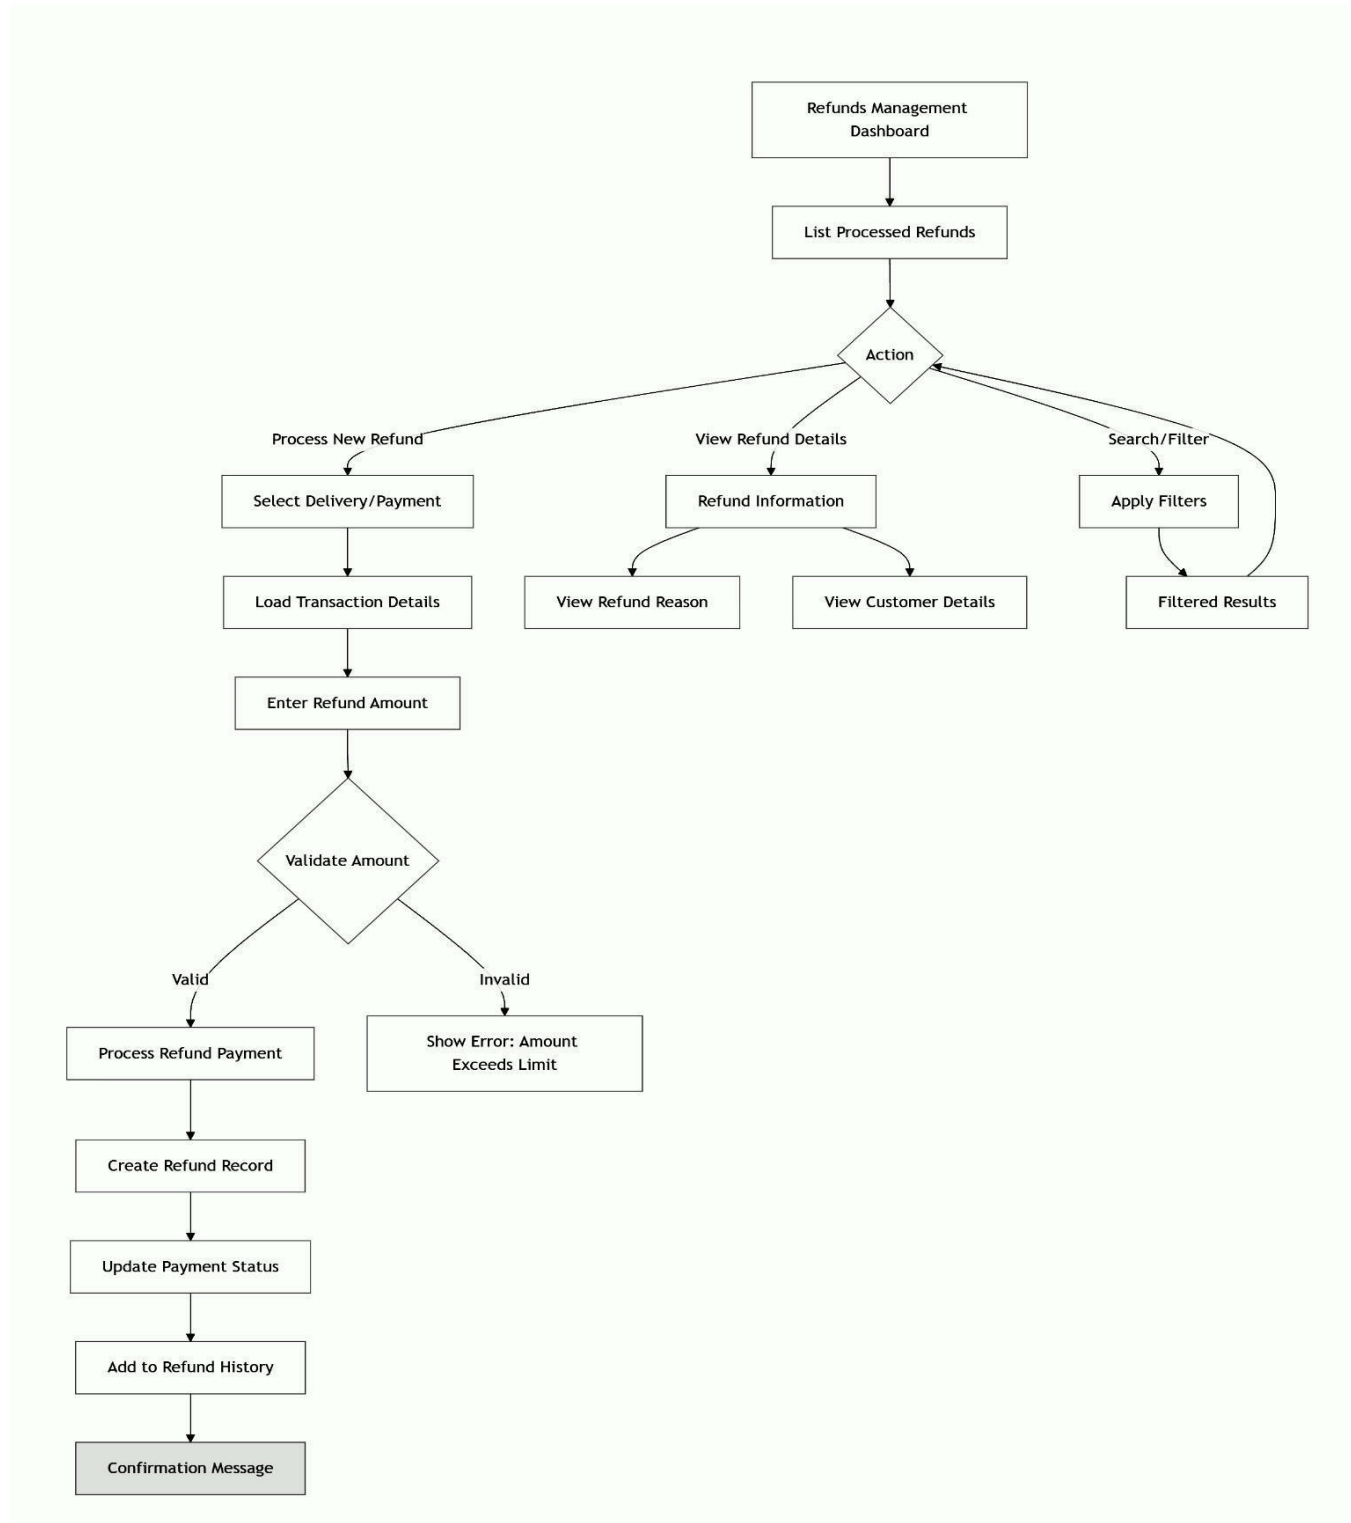

Figure 10.3: Administrator: Refund Management
This Diagram shows how the administrator manages refunds.

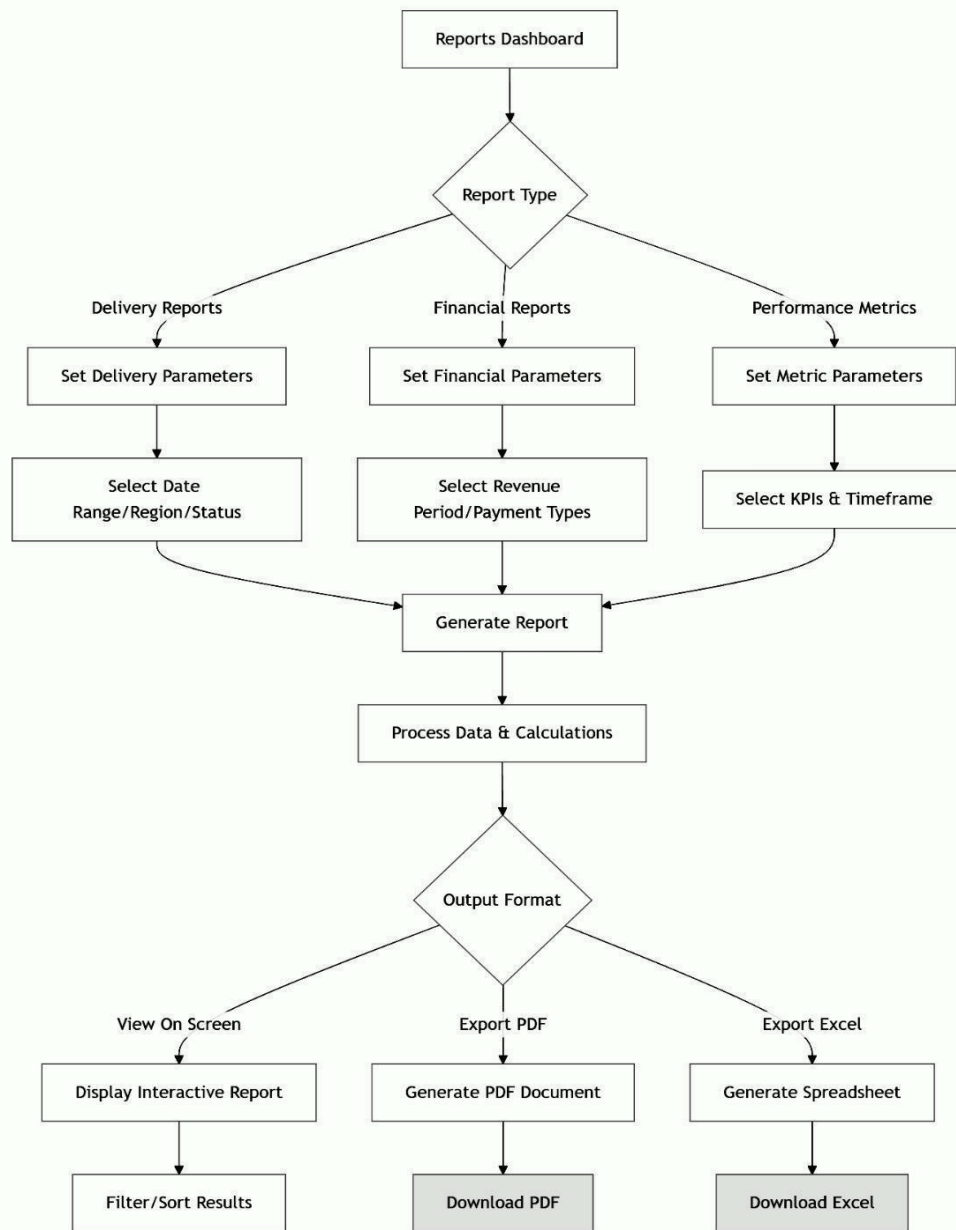

Figure 10.4: Administrator: Reports and Analytics

This diagram shows how the administrator manages reports and analytics.

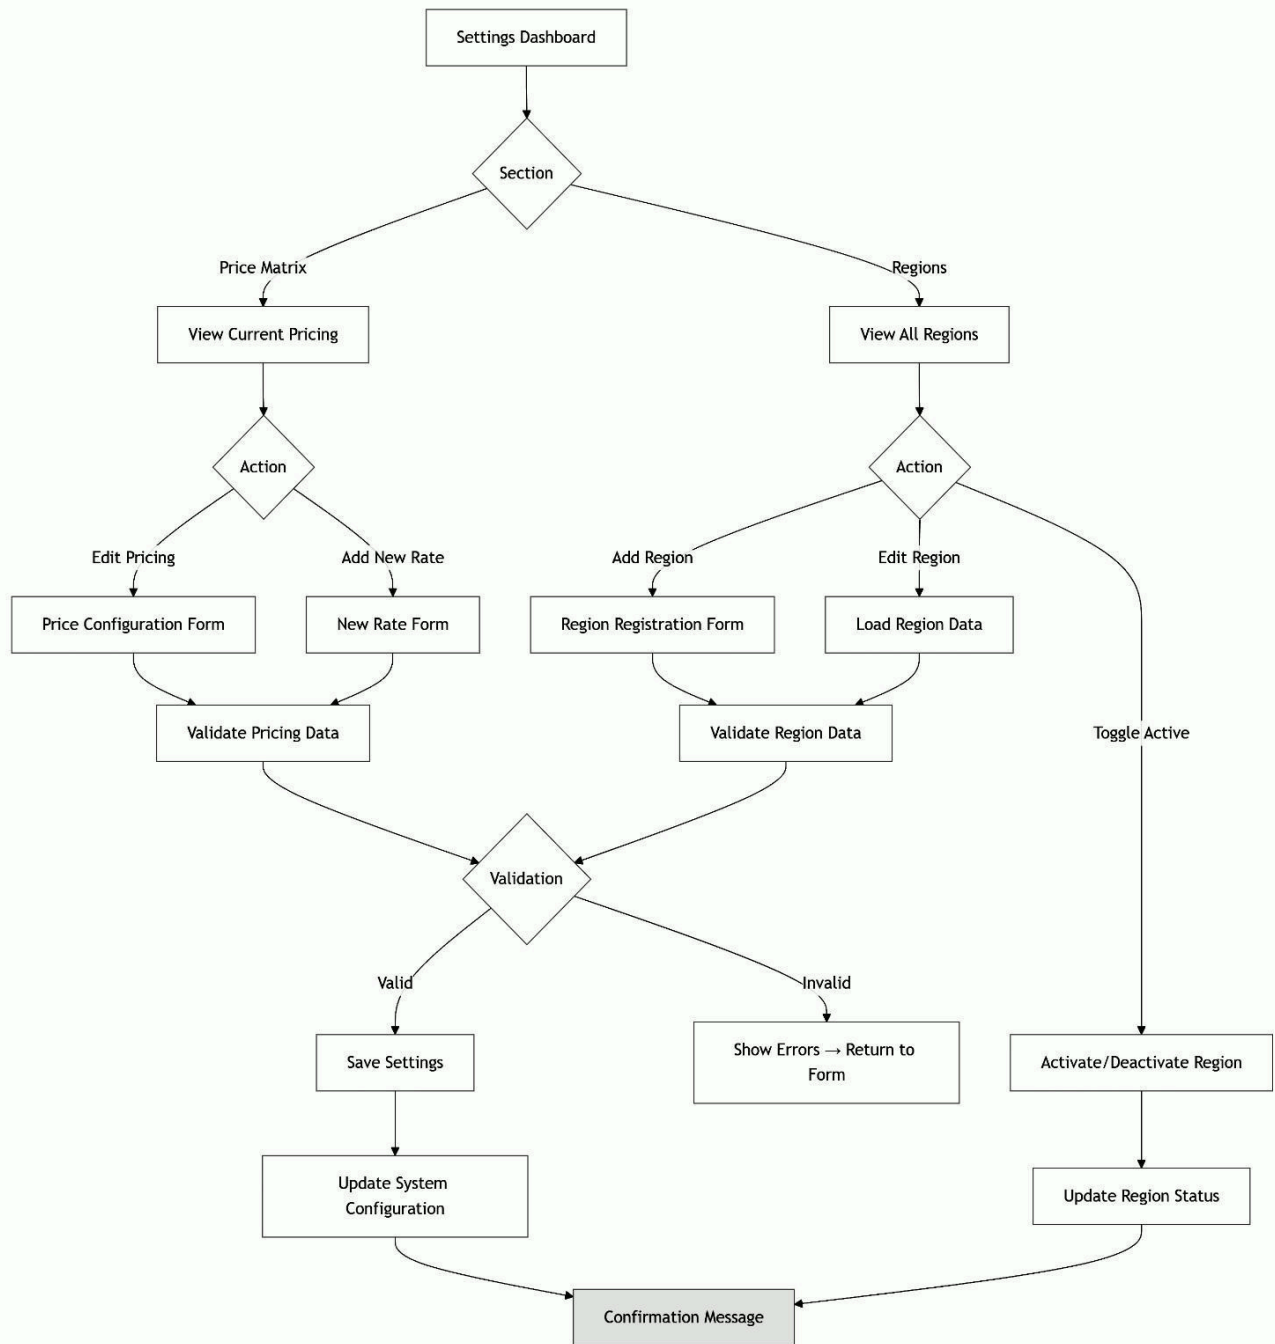

Figure 10.5: Administrator: Settings Management

This diagram shows how the administrator manages system settings.

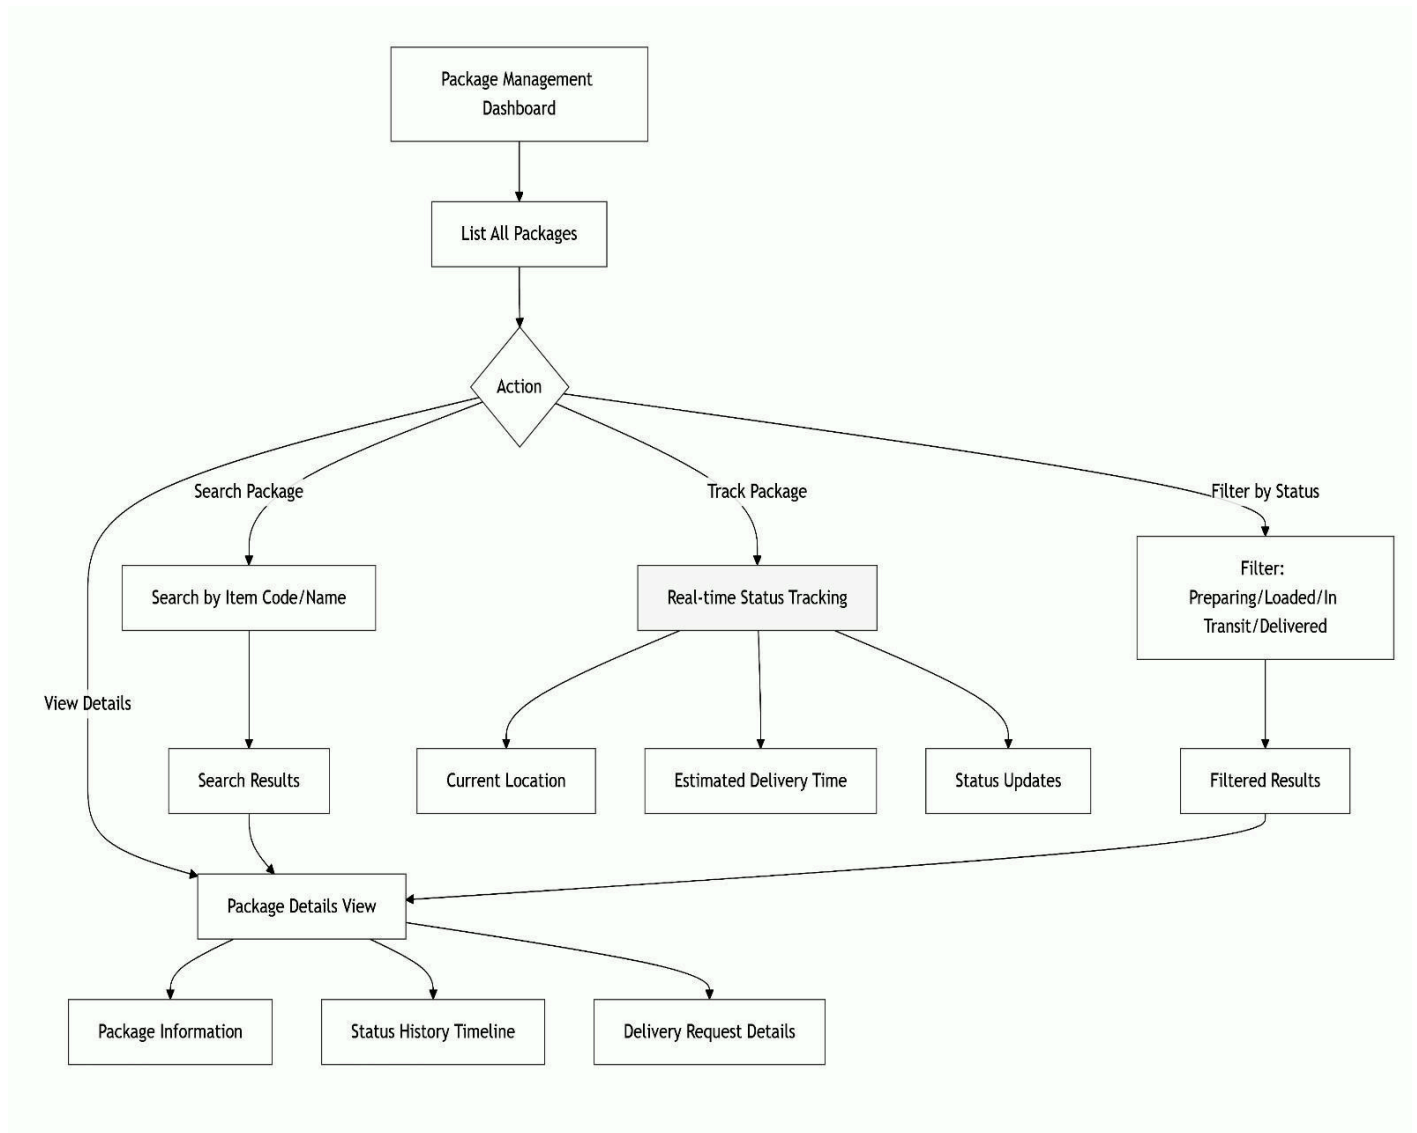

Figure 11: Administrator and Staff: Package Management
This diagram shows how the administrator and staff manage packages.

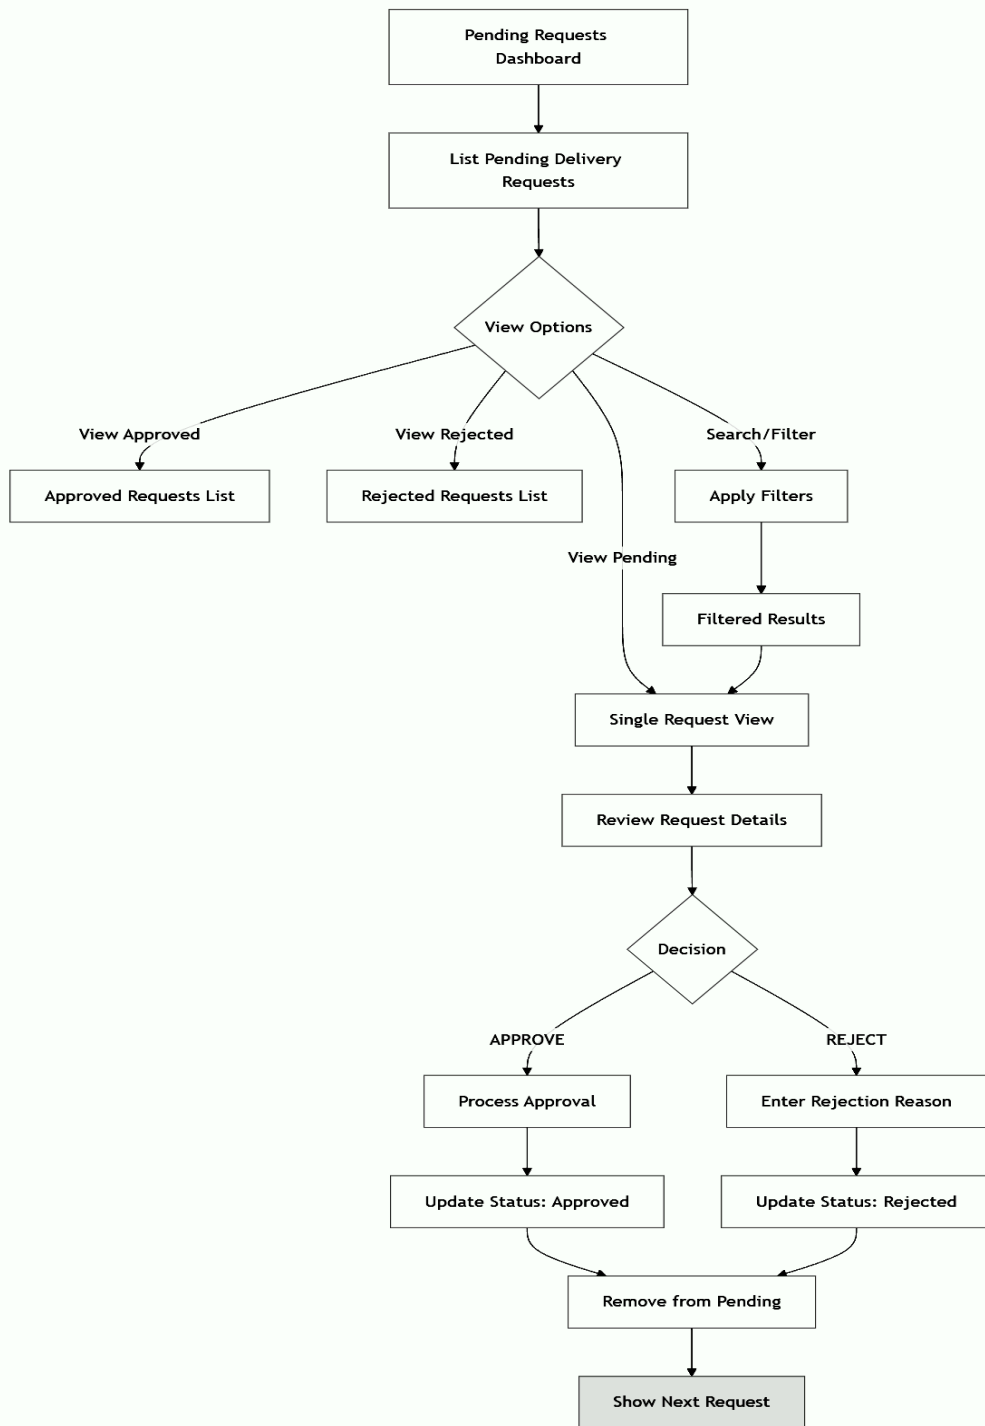

Figure 11.1: Administrator and Staff: Pending Request Management

This diagram shows how the administrator and staff manage pending request.

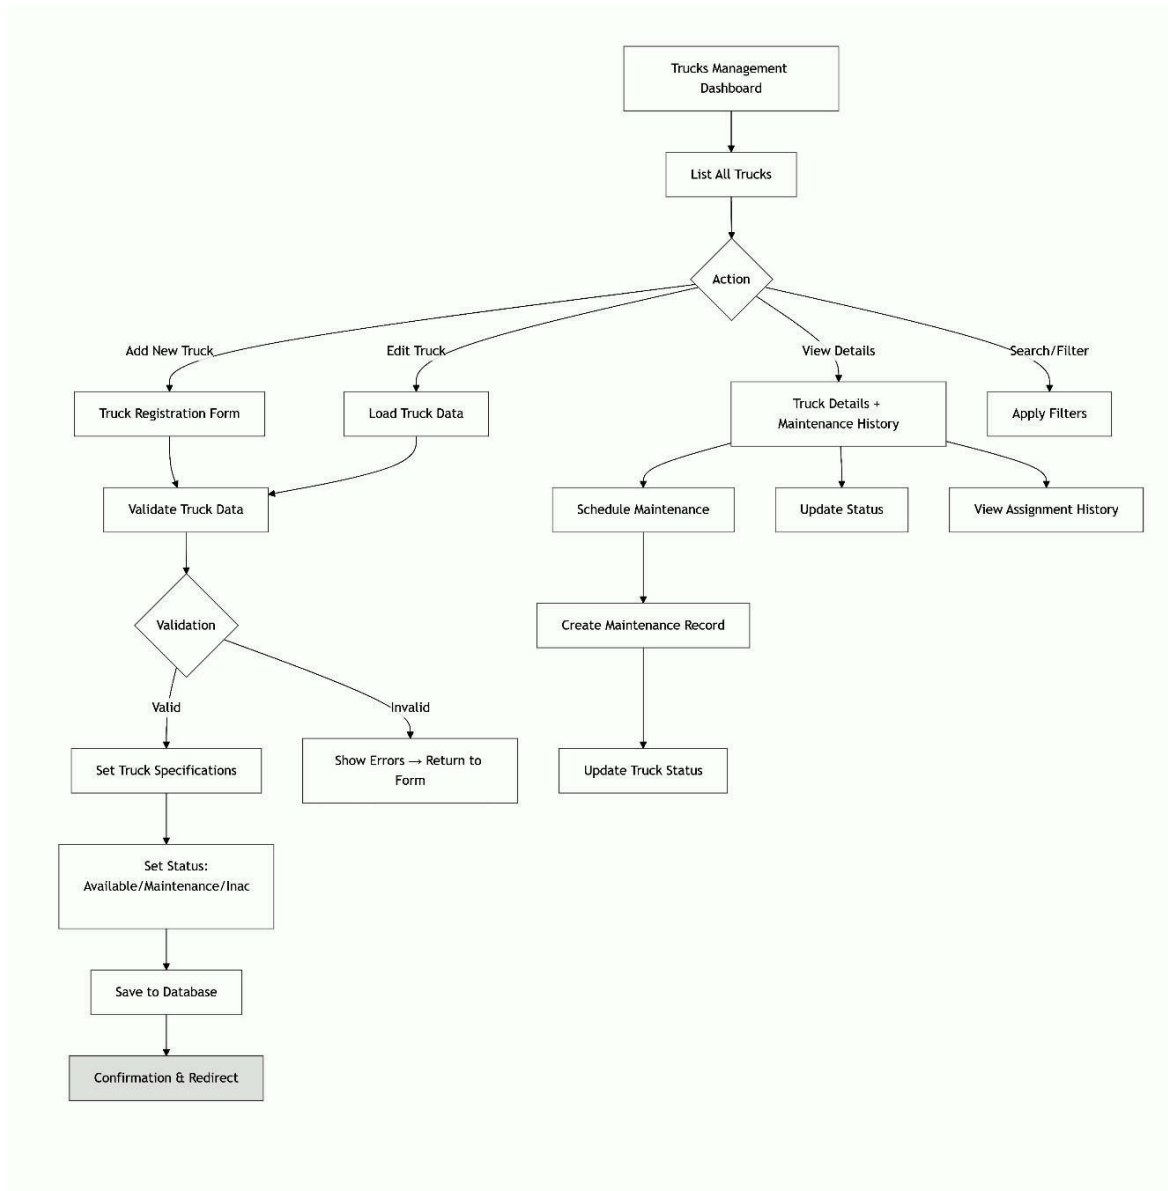

Figure 11.2: Administrator and Staff: Truck Management

This diagram shows how the administrator and staff manage trucks.

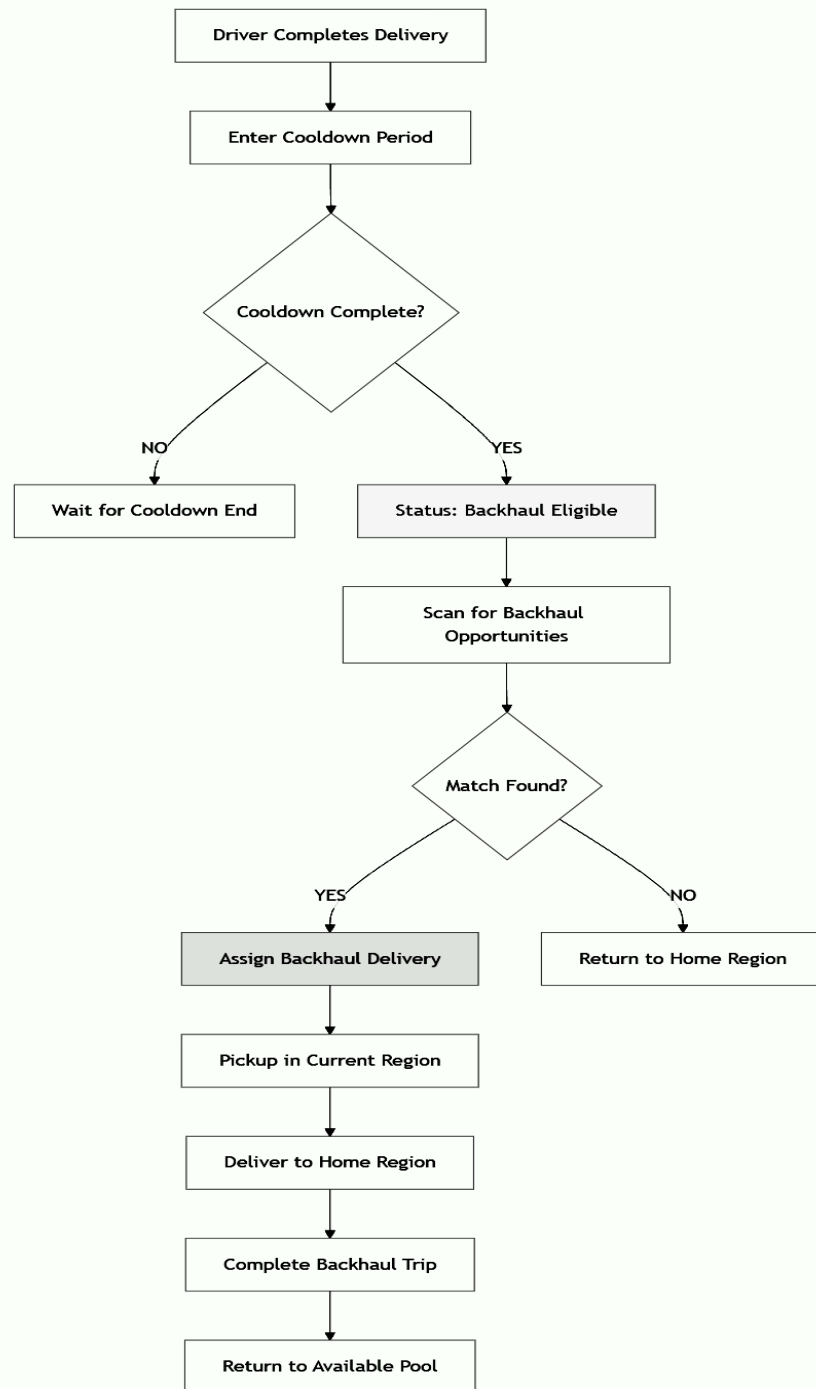

Figure 12: Backhaul Optimization

This diagram shows the process of optimizing backhaul operations.

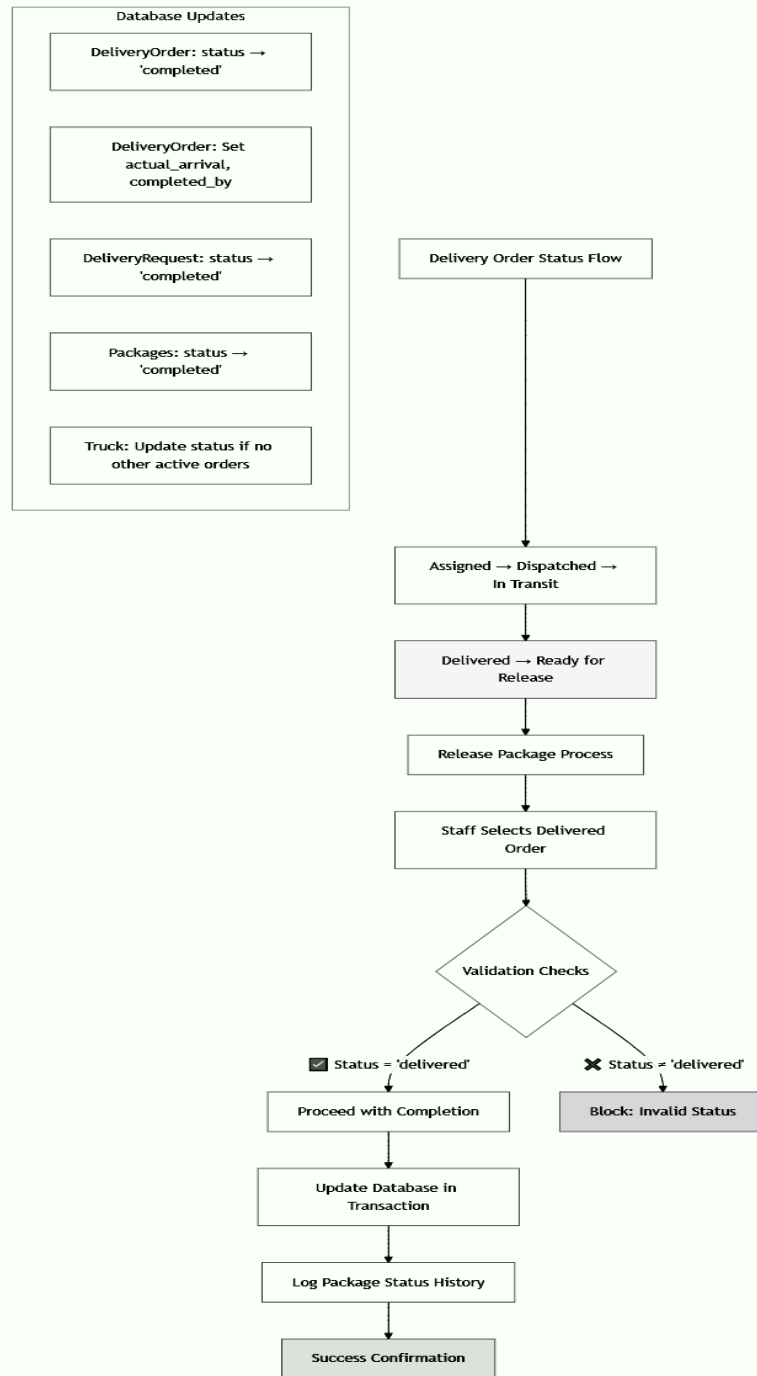

Figure 13: Delivery Completion

This diagram shows the process of completing deliveries.

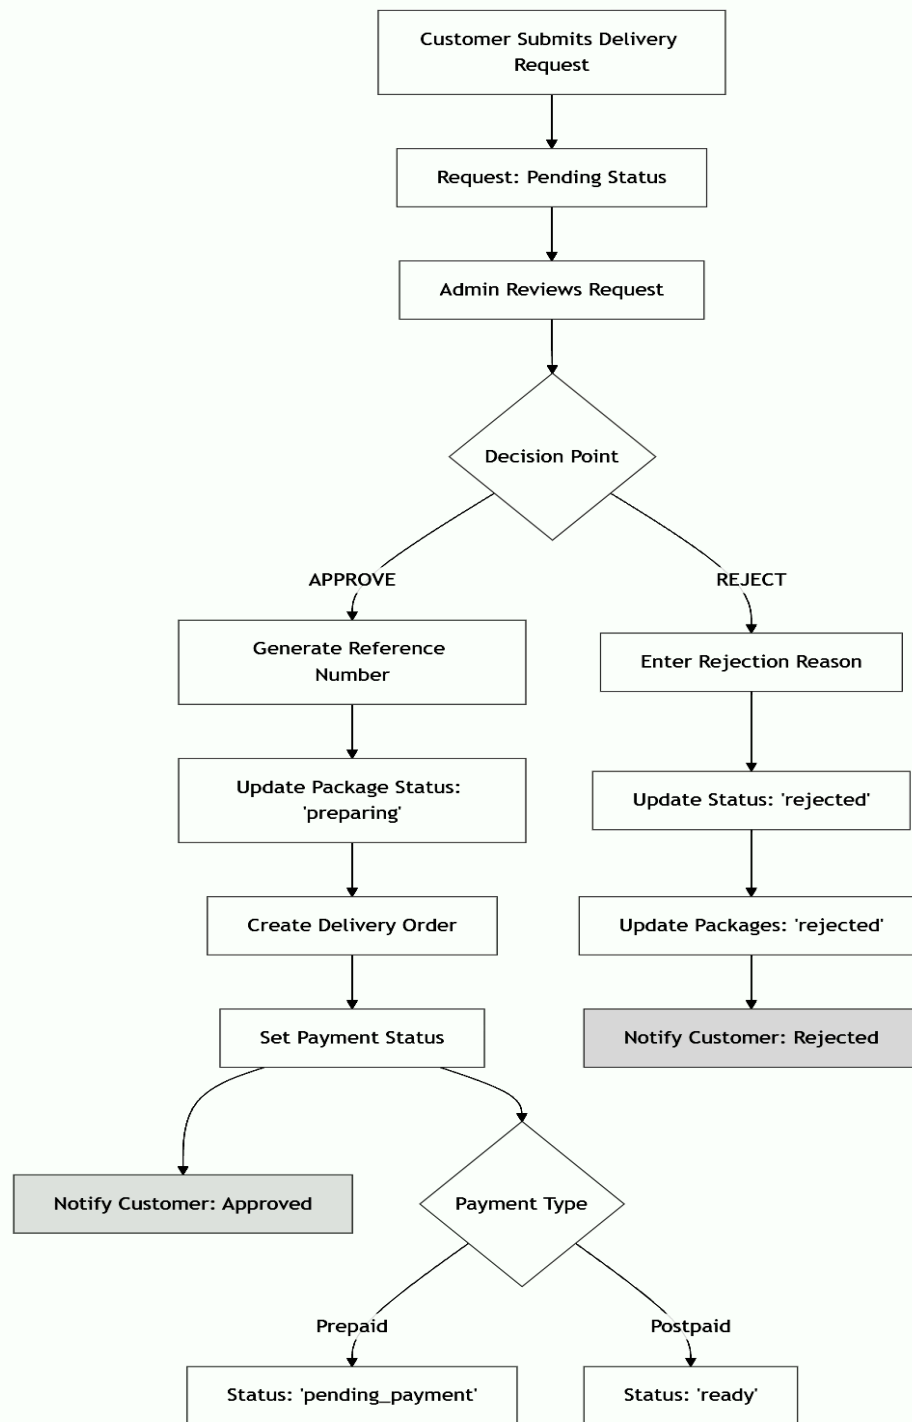

Figure 14: Delivery Request Approval

This diagram shows the process of approving delivery requests.

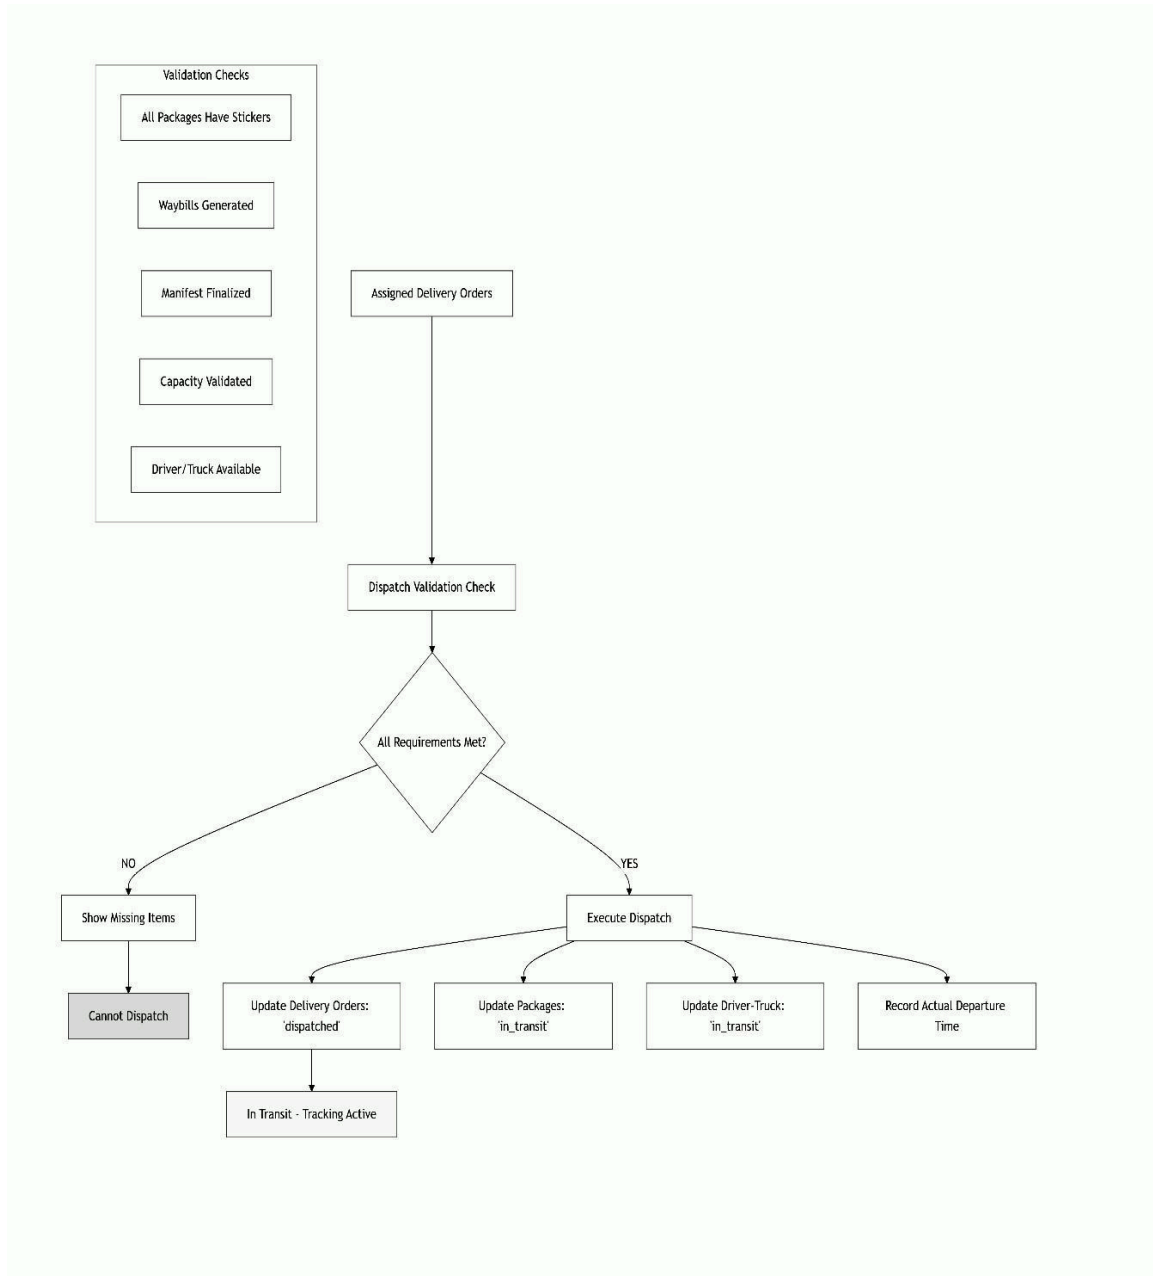

Figure 15: Dispatch Validation & Execution

This diagram shows the process of validating and executing dispatch operations.

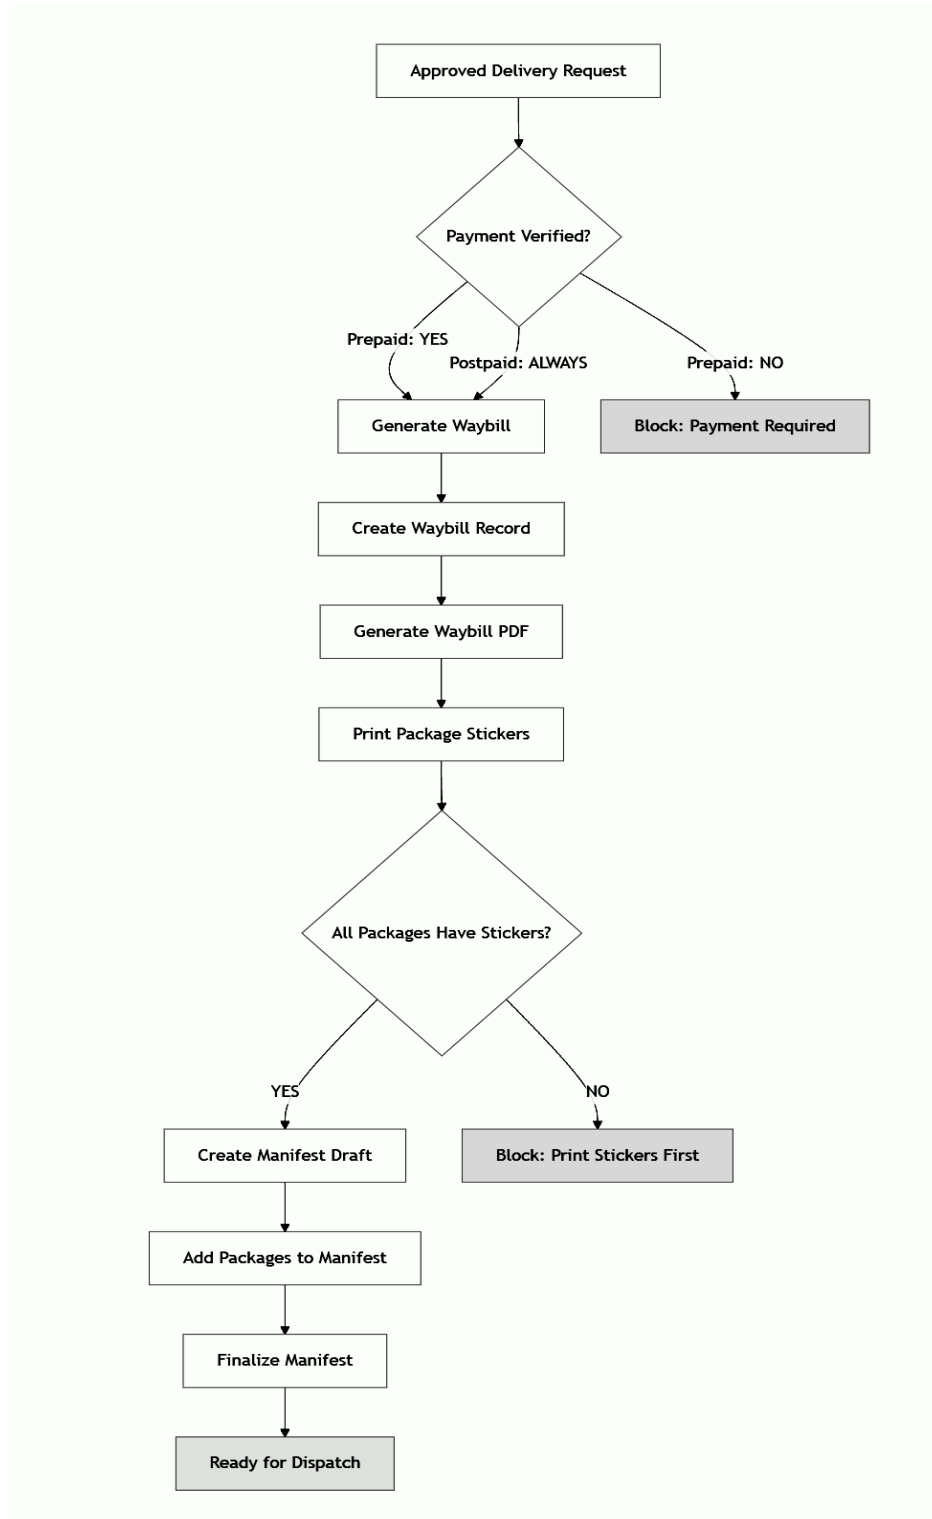

Figure 16: Document Generation

This diagram shows the process of generating documents.

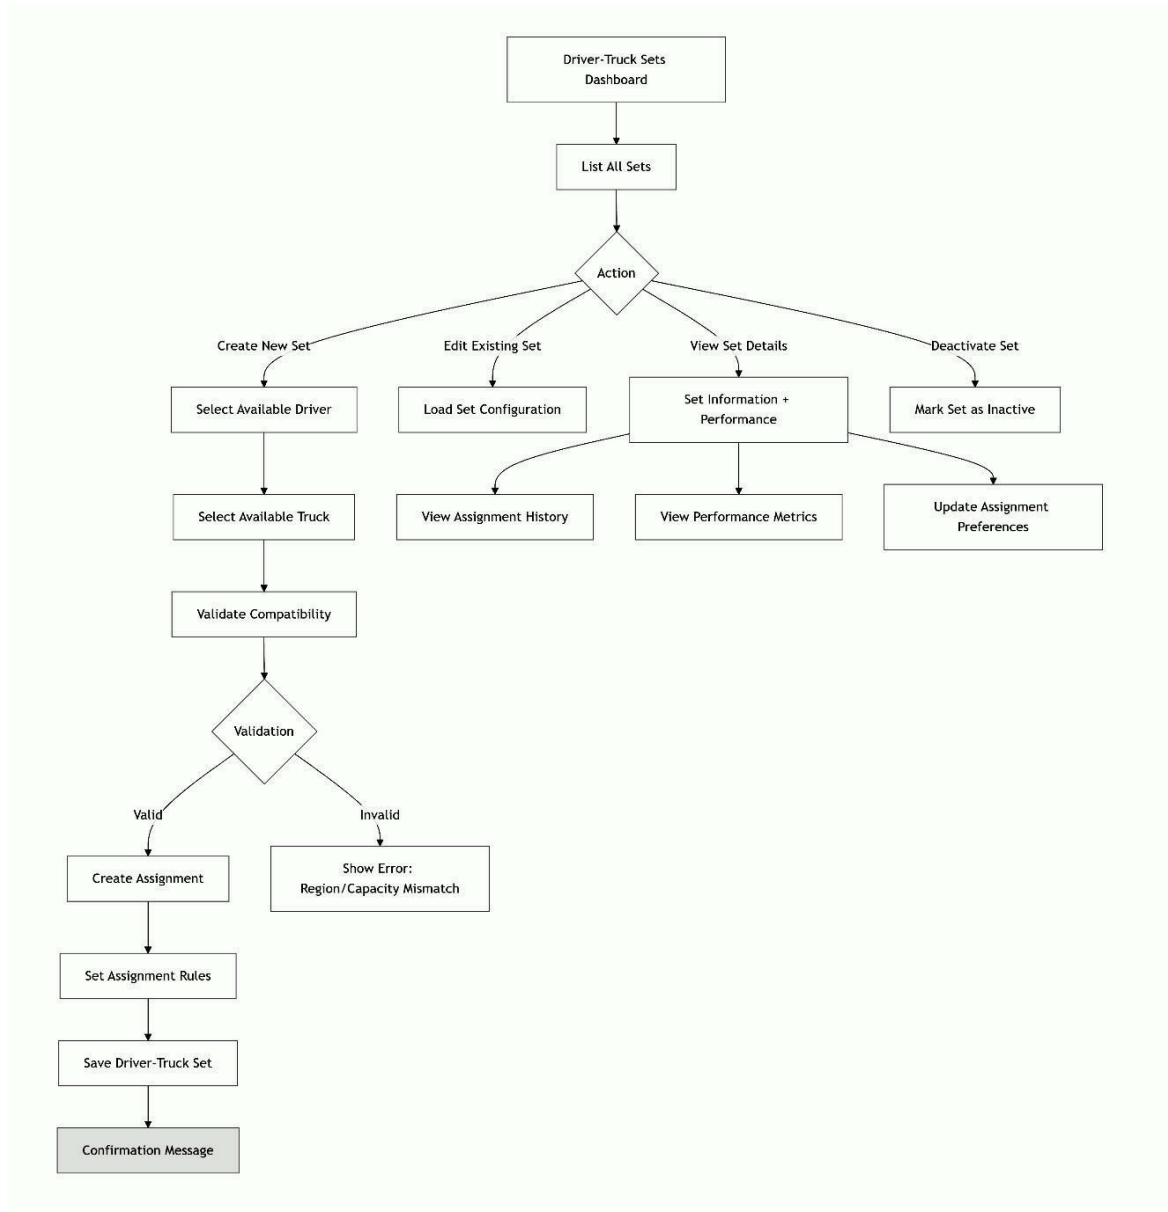

Figure 17: Driver Truck Sets Management

This diagram shows how driver and truck sets are managed.

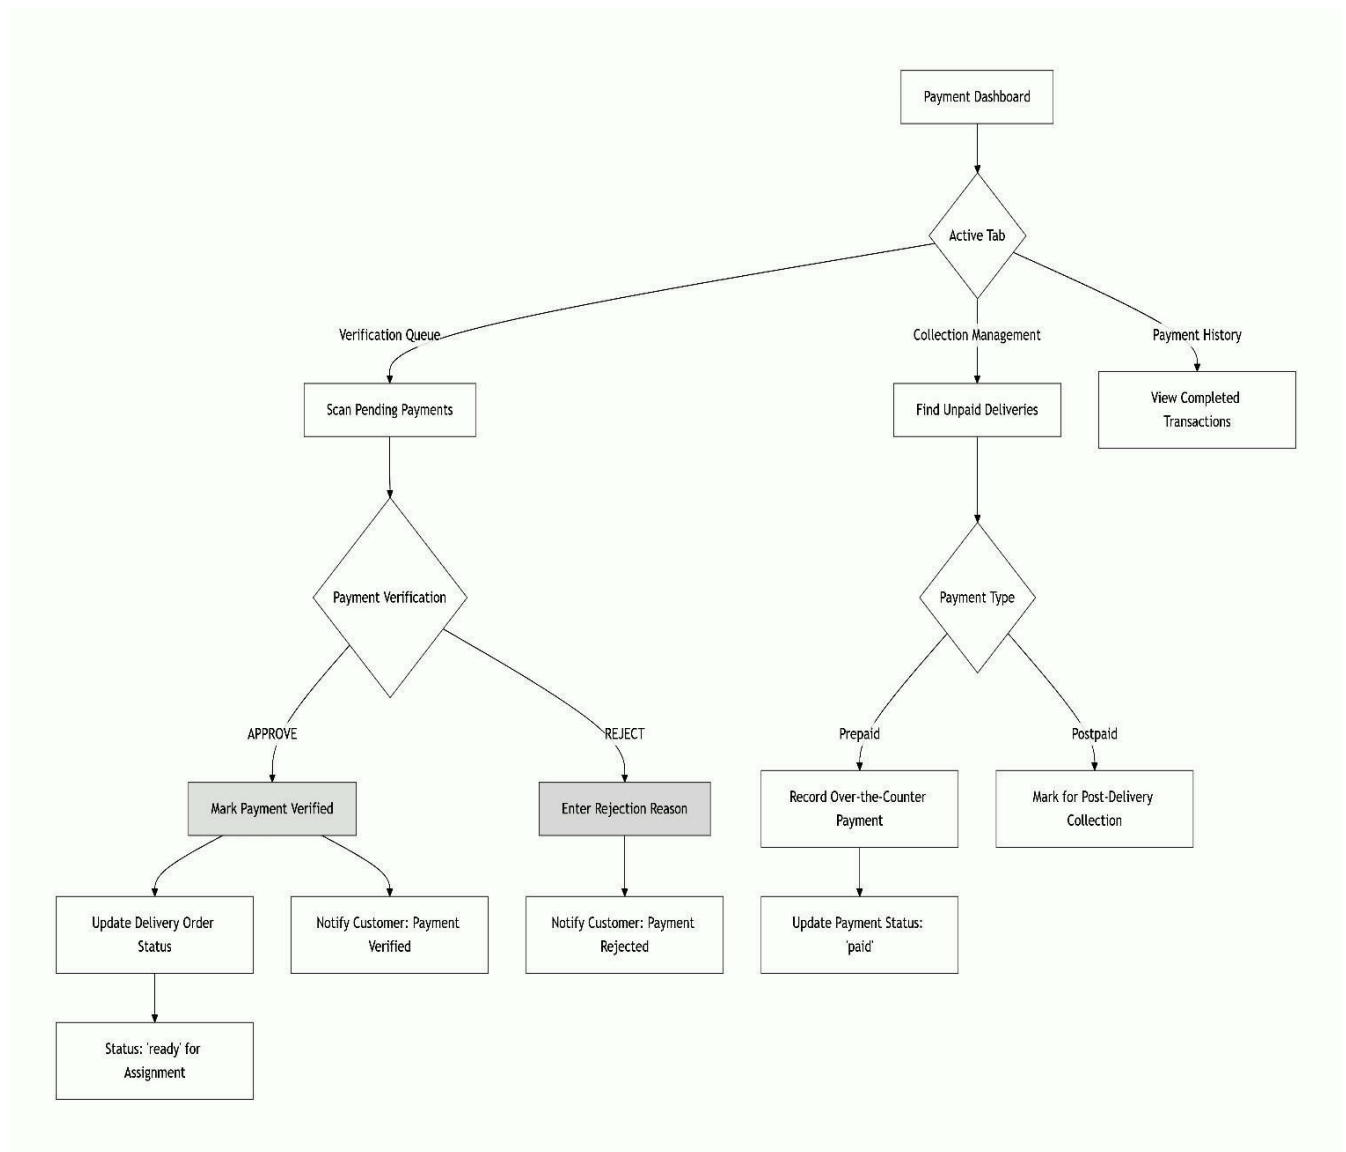

Figure 18: Payment Processing

This diagram shows the process of handling payment transactions.

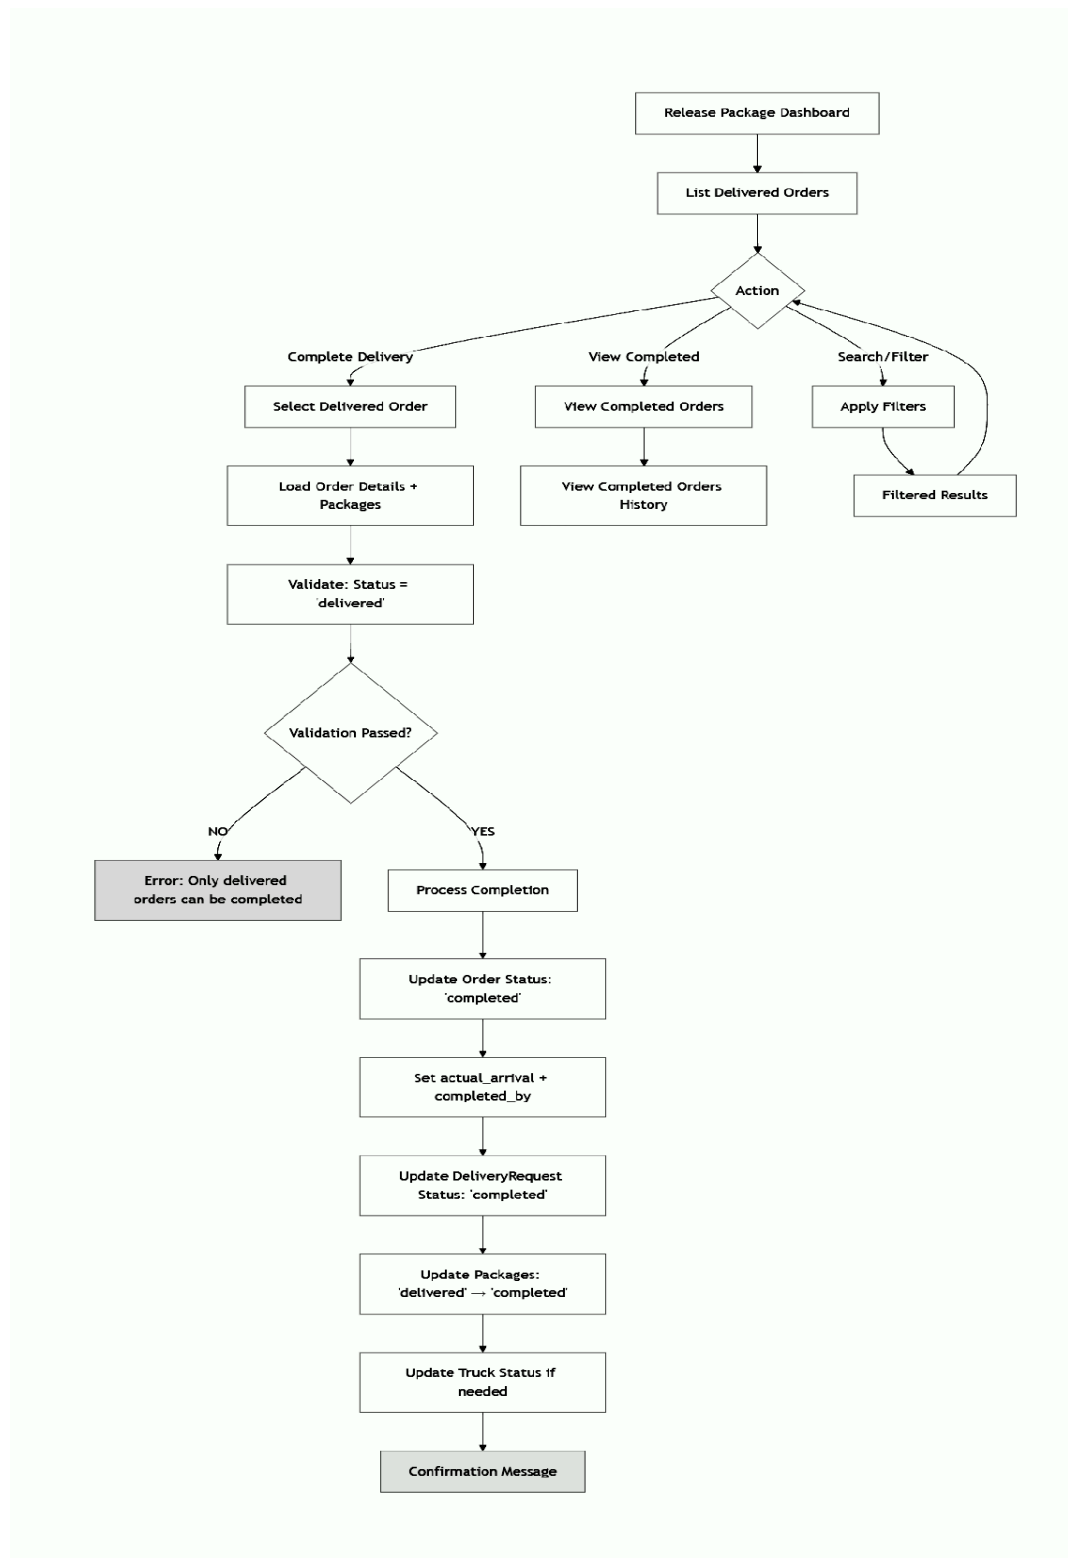

Figure 19: Release Packages

This diagram shows the process of releasing packages.
